Pine Island - Minnesota

¶Looking at the list of all those who sell—the modern way of buying goods.

¶The man who buys without looking at the list of those who sell does himself a gross injustice.

¶Using the classified directory of the whole State is like going to the market place; it brings to view each and every individual in any and all lines of trade and here the intelligent buyer may select the best of everything at the lowest price.

¶The habit of using the classified directory will save large sums of money and will always secure the best in any line. It is the modern up-to-date method of getting what you want.

¶To the advertiser the Northwestern Gazetteer is the most economical and effective method of saying what he has to say to the 4,000,000 progressive, prosperous people who live in these four Northwestern States.

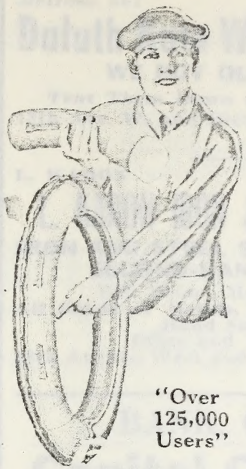
AUTOMOBILE TIRES



"Over 125,000 Users"

Essenkay THE TIRE FILLER

No Punctures--No Blowouts

It's not a dream—it's a fact. We are prepared to prove to every motorist in the state that Essenkay is better than air in tires.

Essenkay THE TIRE FILLER

Rides like air—absorbs shocks, jars and bumps—but makes a flat tire impossible. No stops at garage or repair shops—no delays on the road to change tires. No soiled hands or ruined clothes.

Doubles Tire Mileage

Tires filled with Essenkay wear down to the last layer of fabric; 10,000 to 20,000 miles on a tire is the rule, not the exception. When a tire wears out remove the Essenkay to the new casing. It will last for years and is not affected by heat or cold.

DRIVE IN TO OUR UP-TO-DATE SERVICE STATION

It won't take long to equip your tires with Essenkay. This wonderful protection for summer touring will be worth many times the moderate outlay.

The Essenkay Company of Minnesota, Inc.

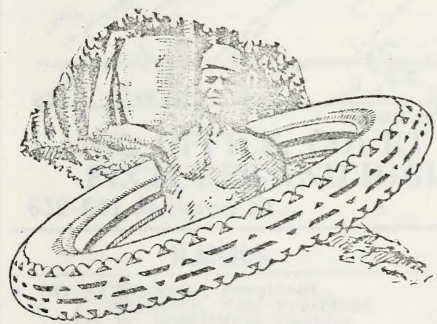
2484-86 University Ave. **ST. PAUL, MINNESOTA**

One Block East of Overland Building.

Some good territory still open. High grade dealers write us for proposition.

AUBURN TIRES

Certified Quality



TIRES WITHOUT A MYSTERY OR SECRET PROCESS

For the first time in tire history you can buy a tire with the actual ingredients plainly printed and certified.

Why More Rubber Means More Mileage

Where ordinary "compound" treads may chip, crack and crumble, the Auburn Certified "more rubber" tread "gives" and "springs" back into normal shape. That's why "more rubber" means "more mileage" in the tread—why in actual tests the Auburn "more rubber" tread has averaged wear of only 132 of an inch per 1,000 miles of ordinary service.

DEALERS, SEND FOR PRICE LIST. MAKE AUBURN YOUR QUALITY TIRE.

INTRODUCTION

1920

This is the twenty-second biennial edition of the Minnesota Gazetteer, being the forty-fourth year of its publication. It is the best known work of reference in the northwest and is most generally used and widely circulated. No other publication so greatly facilitates the exchange and sale of city and country products because it is used alike by residents of city, village and country folk.

It has heretofore been bound in one huge volume including the states of Minnesota, North and South Dakota and Montana, but the population and business of the great empire which it serves has grown to such an extent as to render it impossible to continue to place this vast fund of information in one volume, and the work in the future will be bound in four separate and distinct volumes. Each state will be taken up in order and published as soon as a thorough canvass can be made for information and the data compiled and printed.

There are many advantages to be gained by having the work bound in four volumes. The smaller volumes will be infinitely more convenient for quick access and reference. Instead of holding the whole of the information until the last is completed, each volume will be delivered while the information is new and up-to-date.

The task of gathering information for these four northwestern states, covering an area of 1,500 miles from east to west, and 400 miles from north to south is one so herculean in its nature as to make it almost impossible to compile and print the information while it is new, but in placing it in four volumes the information for each will be fresh and up-to-date when delivered.

The Northwestern Gazetteer is so well known and so highly appreciated that it has been quite a problem to know how to continue the work so it may cover this northwest trade center as it has always done, and to bind it in four volumes has happily solved the question.

Now every patron may continue the whole or he may order one state or two or three, as he pleases. He may use one of the volumes to his own advantage without interfering in any respect with the advantages he has always had, or he may use the four volumes and not interfere in the slightest extent in the use of the great Northwestern Gazetteer, which for forty-four years has served the business men of the northwest trade center.

The Gazetteer or alphabetical portion contains the name of each city, village, post office, and railroad station in the state, arranged in alphabetical order. A complete description of each is given, such as the population, county in which it is located, the railroads it is on, etc.

The name of every person doing business in each place follows and then they are again classified in one comprehensive business directory. Every line of trade is listed separately and in alphabetical order and the names of all persons engaged in each business or profession are arranged in alphabetical order, first by towns and then by individual names. This classified list is invaluable to all who may buy or sell. Everything made in the northwest is listed. These lists are a special trade directory of every business or profession and form the greatest buyer's guide in the world.

In addition to the regular business directory of each place and the special directory of each line of trade there appears the miscellaneous directory, giving a description of the state from its early settlement to the present date, showing its development in agriculture, manufacturing, population and trade. It gives a list of all state officers, state institutions and state boards, and a list of courts, United States, State, and District, railroads in the state, collection, game and fish laws, and a full and complete list of county officers.

A marked growth has taken place in the state since the issue of the last Gazetteer two years ago. The natural advantages and resources of the state with its ability to produce food, wool and leather necessarily contributes to its growth and prosperity.

Respectfully,

THE PUBLISHERS,
R. L. Polk & Co.

STATE OF MINNESOTA

Organized as a territory March 3d, 1849, admitted to the Union as a state May 11th, 1858. Area 84,682 square miles. Population, estimated 2,500,000.

Minnesota was originally explored by French missionaries of the seventeenth century. Their writings and their records show that they had a highly favorable impression of its climate, forests, native animals and the productive values of the land and also of the clear skies and pure waters.

The French were followed by the English who left the same record of appreciation of Minnesota, especially of its lands and its climate.

In 1805, a company of the United States troops was sent to Minnesota to trade with the Sioux and Chippewa Indians and to place the state under military government.

In 1838, the Chippewas ceded their lands on the east side of the Mississippi to the Government, which opened the forests to the lumbermen. This brought immense numbers of people to the state for their was no better timber found anywhere. The glowing descriptions of the climate which they sent out over the Union brought large numbers of tourists to Minnesota. They came here for pleasure and recreation about the same as they go now to Yellowstone and the Yosemite National Parks.

Minnesota was known in the early 80's as the paradise of the tourist and throngs came here every summer.

The panic prevailing at the time the Civil War began and the Indian uprising of 1862 impeded the progress of the new state considerably.

When the war occasioned a demand for agricultural products in excess of that produced in the settled states, they naturally looked to Minnesota as a country capable of producing the surplus and the influx of population to the state then was very rapid.

There was considerable railroad building and Minnesota began to attract attention as a wheat-raising region and then as a great dairy country.

The capital of the state was fixed at St Paul as being most easy of access. The progress of Minnesota has continued uninterruptedly and the present year bids fair to be the best in the history of the state.

A third of the population of the state is in the cities of St Paul, Minneapolis and Duluth. There are many thriving cities and villages. The farmers are all prosperous. The lands are all increasing in value.

LOCATION.

The state extends from 43 degrees 30 minutes to 49 degrees north latitude, and from 90 to 97 degrees west longitude, having an area of 84,682 square miles.

THE COMMERCIAL GATEWAY.

The location of the state clearly indicates its importance to commerce. The Great Lakes offer deep water navigation to one of Minnesota's principal cities. Another is at the head of navigation on the Mississippi river with uninterrupted communication to the Gulf of Mexico. Another is on the Red River of the North which affords an outlet into Lake Winnipeg, giving it connection with the Hudson Bay.

A network of railroads has spread over the state. The situation therefore makes Minnesota the natural gateway for the commerce of all the country west of it and must have an influence on the fortunes of the state.

CONTOUR OF THE SURFACE—ALTITUDE 1,200 FEET.

This entire state, together with nearly all of its surrounding country, is covered with a deposit of loose friable drift to the depth of several hundred feet, which has been subject to the washings of rains and melting snows and the flowing of streams for ages, and as can readily be imagined, is cut into numerous ravines and valleys of greatly varying width and depth. There are therefore, but limited areas remaining which approach uniformity of level. The most nearly level places are on the uplands and in the wide valleys of the larger rivers. Generally the inclines are easy grades, with the drainage water courses flowing gently through expansive valleys and cutting the surface into a succession of billowy dividides; but in several localities, as in the Missabe Ridge, and in places on the Coteaux and in the vicinity of some of the larger streams, the valleys are narrow and deep, and give the country the appearance of almost mountainous ruggedness. The large rivers have deep and contracted valleys in nearly all parts of the state, but this is especially the case with the Mississippi in the lower part of its course, and with several of its tributaries in the southeastern part of the state, where they have cut deeply into the rocky formations which underlie the drift surface soil. The general inclination of the state is towards the southeast, the lower part being at the Iowa boundary. This is less than 700 feet above sea level, and the shore of Lake Superior on the northeast and the channel of Red River on the northwest are but little higher. The main elevation of the entire state, as estimated by the geologists, is about 1,200 feet; there being localities where the height of 2,400 feet, in the Missabe range, is reached. The lowest cultivatable land in the state is that in the lower portion of the Minnesota river valley, where the elevation is only about 800 feet.

FERTILITY OF THE SOIL.

The drift, which forms the surface covering of the entire state and everywhere has a depth beyond the reach of plow or other implement of cultivation, is apparently the debris of rocks, ground up by forces which in some past age have acted upon them for

STATE OF MINNESOTA

long periods of time, and precipitated by the waters in which they were held in partial solution. They include nearly every rocky element found anywhere upon the globe, and are more or less thoroughly intermixed with organic remains. They are rich in plant food and yield luxuriantly all kinds of cultivated crops adapted to the northern climate. The soil differs slightly in different parts of the state; that in the lower lands and valleys having of course, a larger proportion of organic matter, and it is uusually more clayey, except in the immediate vicinity of the streams, where the sands are washed free of other and lighter material by successive overflows. On some of the flat highlands, as in parts of Murray county, and in the Red River valley, also, there is an unusual admixture of alkaloids, so much so in places as to impregnate the surface water to a degree rendering it unsuitable for drinking. These spots are of limited extent, however, and the alkali does not seem to interfere with their productiveness, otherwise than to improve their adaptability for growing wheat. The land everywhere is easily cultivated, and the proportion of the uncultivatable area is insignificant as compared with the total area of the state. The only extensive districts which can justly be called unsuitable for cultivation are in the extreme northern part, and these are now found to have a greater value because of the excellent iron ores they contain. Along the Mississippi river and several other of the large streams there are places where the bluffs are cut into deep gulleys for short distances, rendering a considerable aggregate area too rough for farming purposes; but here again the timber growth more than compensates for the loss.

LAKES AND STREAMS.

Minnesota has ten thousand lakes, varying in size from forty acres to ten thousand acres of surface. These lakes contain the purest of waters and they contain large quantities of fish, affording great sport for fishing. The Mississippi river traverses the state from north to south. The other principal rivers are the Minnesota river, the St Croix, the Kettle river and the Red river of the North. There is no place in the world where water courses are of such frequent occurrence and where pure water is so abundant.

AREA OF PUBLIC LANDS.

The estimated total area of the state, exclusive of lakes and watercourses, is 50,000,000 acres, of which about 2,000,000 acres are still owned by the state and federal government and are subject to sale, settlement and entry. Much of this land is valuable for timber and agricultural purposes, and some of it is valuable for mineral purposes. The various railroad companies also own large grants of land.

AGRICULTURAL PRODUCTS.

Minnesota has probably the richest lands in the Union. For years it has grown the largest quantity and the highest grade of wheat known as No. 1 Hard. The state is admirably adapted for dairying and the dairying interests bring many millions of dollars to the farmers.

The immmense quantities of high-grade wheat and the best grade of butter which it produces caused Mr H. P. Hall to name it the "Bread and Butter State of the Union." All kinds of small grains are grown profitably in Minnesota. Recently is has been discovered that the climate and soil were highly favorable to fruit raising and all kinds of fruits are now raised in abundance throughout the state.

THE MINING INDUSTRY.

Minnesota is one of the greatest iron producing states in the Union. In fact it is rated as the second iron producing state. Its annual iron ore produce has grown until it is more than double that of Pennsylvania. The three great ranges, Vermillion, Missabe and Cuyuna are attracting general attention on account of the immense deposits of high-grade ore. The industries which naturally follow the iron production are settling around Duluth. The steel plant has the largest institution of its kind in the world which is a great victory for Minnesota, because heretofore, the products of the mines have been shipped across the lakes.

THE TIMBER INDUSTRY.

The great forests of Minnesota have been a source of wonder and delight for a century, and it is the timber industry that formerly aided in bringing the state to the prominence which it now enjoys. No finer grade of pine is produced anywhere.

MANUFACTURING AND RAILROADS.

Minnesota is primarily an agricultural state, although about one-eigth of its area is given up to mining. The manufacturing industries are widely diversified, but flour and lumber are the leading products although almost every article is produced here in large quantities.

The transportation facilities here are extensive and fast expanding. There are about 10,000 miles of railroad in successful operation and the whole system of the west and the east radiates from the Twin Cities and Duluth.

Minnesota has a free school system, second to no other in the nation. When the first territorial government was established in 1849 an immense quantity of land was set aside by Congress for the support of educational institutions. These lands are now of great value and are sufficient to support the schools, colleges and universities of almost any state but in addition to the revenue derived from these valuable school lands, the state annually distributes about $1,000,000 raised by special tax for the maintenance of the schools and colleges and university of the state.

The Ten Thousand Lakes Ass'n has been organized to bring to notice the attractions of Minnesota as a summer resort and it is expected that many thousands of persons will come to Minnesota to spend their vacations, to enjoy the scenery of the most beautiful state in the Union, to restore health and strength through the cool and invigorating breeze that blow over the cool waters of myriads of clear water lakes.

Minnesota State Government

Capitol, St. Paul

ELECTION FIRST TUESDAY AFTER THE FIRST MONDAY IN NOVEMBER EVERY EVEN YEAR.

STATE OFFICERS

Governor—J A A Burnquist, St Paul
Lieut Governor—Thos Frankson, St Paul.
Secretary of State—J A Schmahl, Redwood Falls.
Auditor—J A O Preus, Minneapolis.
Treasurer—Henry Rhines, Mora
Deputy Treasurer—E H Walden St Paul.
Attorney General—Clifford L Hilton, Fergus Falls.
Adjutant General—W F Rhinow, St Paul.
Commissioner of Education—J M McConnell, Mankato.
Public Examiner—A E Fritz, St Cloud.
Superintendent of Banks—F E Pearson, Pipestone.
Insurance Commissioner—Gustaf Lindquist, St Paul.
Fire Marshall— G E Nettleton.
Game Warden—Carlos Avery.
Librarian—E J Lien.
Public Employment Bureau—J H Wilson.
Park Commissioner, Dalles of St Croix—E M Truesdell, Taylors Falls.
Commissioner of Immigration—Jas B Arneson, Deputy Chas E Kelley.
Commissioner of Agriculture—N J Holmberg.
Dairy and Food Commissioner—Chris Heen.
Secretary Dairy and Food Dept—H D Meyer.
Chief Chemist—Julius Hortvet
Superintendent of Fisheries—E W Cobb.
Commissioner of Weights and Measures—Chas C Neale, Old Capitol.
Governor's Private Secretary—Leland W Scott.
Governor's Executive Clerk—H E Samuelson.
Labor Commissioner—J P Gardiner
Expert Printer—S Y Gordon.
Inspector of State Mines — F A Wildes, Hibbing.
Weighmaster—P P Quist.
U S Property and Disbursing Officer Maj H L Brady.
Commissioner of Highways—C M Babcock.
Entomoligist—A G Ruggles, University Farm.
Hotel Inspector—W A Wittbecker, 314 State Capitol.
Board of Health and Vital Statistics F W Cappelen, N M Watson, C L Scofield, L P Wolff, Egil Boeckmann, S Max White, A E Hedback, O W Holcomb, Roscoe N Hunt. Sec and Executive Officer, C E Smith, 12 State Capitol.
Inspector Steam Vessels and Steam Boilers—V E Patnaude.
Inspector of Apiaries—C D Blaker.
Secretary of State Forestry Board—C C Andrews.
Forester—W T Cox.
Secretary of Tax Commission—N Nelson.
Supt of State Capitol—C E Chapel.
Chief Grain Inspector—G H Tunnell, 303 Zenith bldg
Clerk of Supreme Court—Herman Mueller.
Director of Public Library Commission—Clara F Baldwin.
Superintendent of Fisheries—E W Cobb.

SUPREME COURT OF MINNESOTA.

The Supreme Court of Minnesota meets in January of each year at the Capitol in St Paul.
Chief Justice—C L Brown, Morris.
Associated Justices—Andr Holt, Minneapolis; H B Dibell, Duluth; J H Quinn, Fairmont; Oscar Hallam, St Paul.
Commissioners—M D Taylor, St Cloud; Edw Lees, Winona.
Clerk—Herman Mueller, St Cloud.
Deputy Clerk—Peter O Scow, Long Prairie.
Reporter—H B Wenzell, St Paul.

JUDICIARY.

STATE

DISTRICT COURTS—JUDGES AND TERMS.

First—W L Converse, South St Paul; Alb Johnson, Red Wing.
Dakota County—First Monday in May and second Monday in November.
Goodhue County—Second Monday in March and first Monday in October.
Second—H R Brill, Wm Louis Kelley, O B Lewis, G M Orr, F N Dickson, J C Michael, H O Hanft, C C Haupt, St Paul.
Ramsey County—Court convenes on the first Monday of each month, except July, August and September.
Third—Chas E Callaghan, Rochester
Olmstead County—First Monday in June and December.
Wabasha County—Second Monday in May, second Monday in November.
Winona County—Second Monday in January, third Monday in April, third Monday in September.
Fourth—Danl Fish, H D Dickinson, J H Steele, W E Hale, E F Waite, C S Jelley, W C Leary, J W Molyneaux W W Bardwell, Minneapolis.
Hennepin County—Court convenes on second Monday in September and continues in session until calendar is cleared.
Fifth—A B Childress, Faribault.
Dodge County—First Monday in April, first Monday in October.
Rice County—First Monday in May, second Monday in November.
Steele County—First Monday in June, first Monday in December.
Waseca County—Third Monday in March, third Monday in October.
Sixth—W L Comstock, Mankato.
Blue Earth County—First Tuesday in February, first Tuesday in June, sec-

ond Wednesday in November.

Watonwan County—First Tuesday in May, first Tuesday in October.

Seventh—W L Parsons, Fergus Falls; J A Roeser, St Cloud; C A Nye, Moorhead.

Becker County—Fourth Monday in March, first Monday in October.

Benton County—Second Monday in April, first Monday in October.

Clay County—Second Monday in May, first Monday in December.

Douglas County—Fourth Monday in February, first Tuesday in September.

Mille Lacs County—Fourth Tuesday in March, third Tuesday in October.

Morrison County—Second Tuesday in April, in odd numbered years, first Monday in November, and in even numbered years, Wednesday next following general election days.

Otter Tail County—Second Monday in May, first Monday in December.

Stearns County—Second Monday in May, first Monday in December.

Todd County—Second Monday in March, third Monday in September.

Wadena County—Fourth Monday in April, second Monday in November.

Eighth—C M Tifft, Glencoe.

Carver County—Second Monday in March, second Monday in October.

Le Sueur County—Third Monday in February, third Monday in September.

McLeod County—Second Monday in May, third Monday in November.

Scott County—First Monday in April, fourth Monday in October.

Sibley County—First Monday in June, second Monday in December.

Ninth—Frank Clague, Redwood Falls.

Brown County—Third Monday in May, second Monday in December.

Lincoln County—Third Monday in March, fourth Monday in September.

Lyon County—First Monday in June, third Monday in November.

Nicollet County—First Monday in May, second Monday in October.

Redwood County—Third Monday in April, fourth Monday in October.

Tenth—S D Catherwood, Austin.

Fillmore County—First Monday in May, second Monday in November.

Freeborn County—First Monday in February, second Monday in May and fourth Monday in September.

Houston County—Last Tuesday in April, first Tuesday in December.

Mower County—Second Tuesday in January, second Tuesday in June.

Eleventh—Bert Fesler, W A Cant, J D Ensign, H A Dancer, Duluth Martin Hughes, Hibbing; Edw Freeman, Virginia.

Carlton County—Second Tuesday in February; first Tuesday in June; third Tuesday in October.

Lake County—First Wednesday in June and December.

Cook County—Third Monday in June.

St Louis County—First Wednesday in January, March, May, September and November, at Duluth; first Tuesday in April, fourth Tuesday in August, first Tuesday in December, at Virginia; first Tuesday in February, first Tuesday in June, fourth Tuesday in October, at Hibbing; third Tuesday in January, second Tuesday in August, at Ely

Twelfth—R T Daly, Renville; Gauthe E Qvale, Willmar.

Chippewa County—First Monday in June, fourth Monday in November.

Kandiyohi County—Third Monday in March and first Monday in October.

Lac qui Parle County—First Tuesday in May, second Tuesday in December.

Meeker County—First Monday in June and December.

Renville County—Second Monday in May, second Monday in November.

Swift County—Third Monday in May, second Monday in November.

Yellow Medicine County—Third Tuesday in June, second Tuesday in January.

Thirteenth—L S Nelson, Worthington.

Cottonwood County—First Monday in June, second Monday in November.

Murray County—First Monday in May and December.

Nobles County—Third Monday in February, third Monday in October.

Pipestone County—Second Tuesday in January, third Tuesday in May.

Rock County—Third Tuesday in March, last Tuesday in September.

Fourteenth—Wm Watts, Crookston; Andr Grindeland, Warren.

Norman County—Second Monday in May, second Monday in November.

Polk County—First Monday in June and first Monday after the first of January.

Marshall County—Fourth Monday in May, fourth Monday in November.

Kittson County—Third Monday in June, second Monday in December.

Red Lake County—Fourth Monday in March, third Monday in November.

Roseau County—Third Monday in May, fourth Monday in October.

Mahnomen County—Fourth Tuesday in October.

Pennington County—First Tuesday in February and fourth Tuesday in June.

Fifteenth—W E McClenahan, Brainerd; C W Stanton, Bemidji, and B F Wright, Park Rapids.

Aitkin County—Third Tuesday in March, fourth Tuesday in September.

Beltrami County—Second Tuesday in February, second Tuesday in September.

Cass County—Second Tuesday in April and November.

Clearwater County—Third Tuesday in October.

Crow Wing County—First Tuesday in May, first Tuesday in November.

Hubbard County—Fourth Tuesday in May, first Tuesday in November.

Koochiching County—Second Tuesday in June and January.

Itasca County—Third Tuesday in March, second Tuesday in September. In addition terms may be held at Beaudette and Spooner, on order of the court, and proper notice given.

Sixteenth—S A Flaherty, Morris.

Big Stone County—Third Monday in March, second Monday in October.

Minnesota Collection Laws

Acknowledgments and Affidavits—Judges of all United States and state courts, the clerks thereof, court commissioners, notaries, justices registers of deeds, county auditors, town and city clerks, members of legislature, are authorized to administer oaths and take acknowledgements. Officers outside of the state, authorized in their state to administer oaths or take acknowledgements, must affix seal to instrument. If they have no seal of office, then affix certificate of their official character. Notary must add to acknowledgement or jurat the date when his commission expires.

Assignment and Insolvency Laws—Assignments must be in writing, acknowledged, witnessed and filed in district court in county where debtor resides or business is located. Certified copy must be recorded in register of deeds office to affect real estate. Assignee must be resident and free holder of the state. Inventory and detailed statement of liabilities must be made by debtor within ten days after assignment. Bond of assignee double the value of property. Notice of assignment or appointment of receiver must, within ten days thereafter, be given by publication and mail. Claims must be verified and filed with assignee or receiver within twenty days after publication of notice, unless filing permitted thereafter by order of court. Creditor must, in case of insolvency, or assignment after attachment or garnishment, file release of unpaid portion of claim within time fixed by court. Estate must be converted into money and distributed as follows: First—expenses of assignment or receivership; second—debts due United States, state and taxes; third—wages earned within sixty days; fourth— other debts pro ratio; fifth—remainder, if any, to assignor or debtor. In case of attachment or garnishment, if debtor does not, within ten days, make assignment, receiver may be appointed upon petition of creditors representing two hundred dollars in claims. The making of an assignment or appointment of receiver releases attachment of garnishment. District court has complete jurisdiction in the matter of the assignment or receivership.

Attachment—Writ allowed, upon affidavit of plaintiff, his agent or attorney, stating that a cause of action exists against defendant and the amount and grounds thereof, and that the debt was fraudulently contracted, or that the defendant is a foreign corporation, or not a resident of this state, or has departed therefrom, as deponent verily believes, with intent to defraud or delay his creditors, or to avoid the service of a summons, or keeps himself concealed with like intent, or has assigned, secreted or disposed of, or is about to assign, secrete or dispose of his property with intent to delay or defraud his creditors. But no writ is allowed in action for libel, slander, seduction, breach of promise of marriage, false imprisonment or assault and battery. Bond of not less than $250 required of plaintiff. Attachment dissolved by debtor giving bond in double the amount of the debt claimed, for the payment of whatever judgment plaintiff may obtain.

Garnisment—Employees of cities, villages, school districts, etc., are subject to garnishment.

Chattel Mortgages—Must, as against creditors and subsequent incumbrancers and purchasers in good faith, be acknowledged and witnessed and filed in the office of the register of deeds of the county in which the mortgagor or vendor resides and if the mortgagor or vendor is a non-resident of the state then in the county in which the property mortgaged or sold is then situated. In cities of the first class chattel mortgages, bills of sale and conditional sale contracts must be filed with the city clerk or recorder. Lien continues as against mortgager until debt is paid or barred by statute of limitations but as against creditors and subsequent purchasers the lien of the mortgage does not continue beyond six years from date or filing the mortgage. Mortgagor

Minnesota Collection Laws

or person holding under him or lienholder may redeem mortgage at any time after condition broken and within two days after sale under foreclosurre. Mortgage upon family bible, family pictures, school books or library and musical instruments for use of family; all wearing apparel of the debtor and his family, all beds, bedsteads and bedding, kept and used by the debtor and his family; all stoves and appendages put up or kept for the use of the debtor and his family; all cooking utensils; one sewing machine; and all other household furniture not herein enumerated not exceeding $500 in value; must be signed by husband and wife.

Notes and contracts reserving title to personal property in the seller until purchase price is paid, when filed as in case of chattel mortgages, are notice to creditors of the purchaser for one year after the note of contract or last installment secured thereby become due.

Assignment of debts, except those evidenced by writing, is void as against creditors, unless such assignment is in writing and filed with town clerk, village recorder, or city clerk, unless those claiming under such assignment make it appear that it was in good faith and for a valid consideration.

Deeds—Must be in writing, and may, but need not be under seal, acknowledged, have two witnesses. Acknowledgement must contain statement that grantor is unmarried or if married, that the person joining is husband or wife. (See affidavits and acknowledgements.) Of homestead must be executed by husband and wife. Use of private seals in written contracts abolished.

Corporations—Foreign corporations (organized outside of the state) must file copy of charter in the office of the secretary of state and comply with other provisions of law before transacting business in this state.

Exemptions—Homestead, not to exceed eighty acres outside of the laid out or platted portion of any incorporated city, village or borough, or one-half acre in town, city or village of less than 5,000 inhabitants, or one-third of an acre in cities of over 5,000 population and dwelling house thereon, occupied by owner and to be selected by him. If husband absconds homestead exempt to wife and children. (See Deeds.) Homesteads not exempt from mechanic's liens or judgment for wages of laborer or servant. Family library, pictures, musical instruments, pew, cemetery lot, wearing apparel, five hundred dollars worth of furniture, insurance from exempted property; three cows, ten swine, one yoke of oxen and a horse, or a span of horses or mules, twenty sheep and their wool, food for stock and family provisions and fuel for one year, one wagon, sleigh, two plows, harrow and other farming utensils worth $300, seed grain, not exceeding, 100 bushels of wheat, 100 bushels of barley, 100 bushels of oats, 100 bushels of potatoes, 10 bushels of corn, binding material sufficient for use in harvesting crop grown from above amount of seed grain; tools and implements of mechanic, miner or other person used for the purpose of carrying on his trade and $400 stock in trade; library and implements of a professional man; presses, type, etc., of a printer or publisher or newspaper, whether a person or a co-partnership, to the value of $2,000 and $400 stock in trade; one sewing machine, one watch, bicycle, typewriting machine, $35 of wages earned within thirty days prior to levy of attachment, execution or garnishment; library and apparatus of a public college or school; money received from life insurance of deceased husband or father, $10,000. All money, benefit or relief fund payable by any beneficiary association or society; exempt to certificate holder and beneficiary. No property exempt from attachment or execution for purchase money.

Interest—Legal, six per cent; contracts in writing, ten per cent. Interest on over-due interest allowed if so stipulated in the contract. Interest after maturity same as before. If more than ten per cent be paid, it may be recovered back, and usurer forfeits principal and interest.

Justice Courts—Jurisdiction in actions to recover judgment for $100 or possession of personal property of that value.

Limitation of Actions—To recover real estate or foreclose mortgage, fifteen years; upon judgment, ten years; upon contracts, or trespass upon real property, to recover personal property, for injury to the person or rights of another, not arising on contract, for relief on the grounds of fraud, to enforce a trust or compel an accounting, six years; against sheriff, coroner or constable, or for penalty given to a party, three years; for libel, slander, assault and battery, false imprisonment, penalty to the state, two years.

Married Women—A married woman enjoys all the property rights as if sole, may, sell and convey her real estate, except the homestead, without husband's consent, but subject to his statutory one-third. Husband and wife cannot contract between them as to real estate. In relation to all other subjects they may. Where husband and wife are living together they shall be jointly and severally liable for all necessary household articles and supplies furnished to and used by the family.

Proof of Claims—Non-residents sending claims for collection should give full names of creditors and their residence, full names of debtors, so far as known, and their place of business, an itemized statement of account, which, if suit is directed, or if against the estate of a deceased person, should be verified by oath to the effect that the same is true, and justly due above all legal set-offs, and, when convenient, the name of some person resident of this state who will execute a bond for costs. Such a course will often save much delay.

Revivor—Part payment or a new promise in writing.

Redemption—Real estate sold under execution and foreclosure, one year, for taxes three years, after sale.

Sales—Bulk Sales Law—Sale of stock of merchandise except in ordinary course or business, presumed fraudulent as aginst creditors, unless seller and purchase make inventory showing cost of each article to seller, purchaser

makes inquiry as to names, residence and business of seller's creditors, and purchaser mails to each creditor notice of the sale stating cost to seller and price to be paid, within 5 days before sale.

Stay of Execution—Judgment of district court, six months; justice's court ($10 to over $100) one to six months.

Witness—Party not excluded by reason of interest or crime.

Minnesota Game and Fish Laws

Open season to hunt turtle dove, snipe, prairie chicken or pinnated, white breasted or sharp-tailed grouse, golden plover between the 16th day of September and the 1st day of October following; quail, partridge, ruffled grouse or pheasant, between October 15th and November 30th following; wild duck, wild goose, brant or any variety of acquatic fowl between September 16th and December 31st following.

No morning dove shall be killed before September 16th, 1920. No wood cock prior to September 16th, 1920. No prairie chicken or sharp-tailed goose prior to September 16th, 1922. No upland plover prior to September 16th, 1927.

No partridge or ruffled grouse, Chinese ringneck shall be killed before the 15th day of Oct. 1920 and thereafter only in even numbered years.

Open season to hunt deer and moose between November 15th and December 5th and no person shall kill or have in possession during said time more than one deer and one moose, or parts thereof.

Open season to kill mink or muskrat, between December 15th and April 15th.

Open season for taking or catching trout, April 15th to September 1st following; for black, June 15th, bass, to March 1st following; for pike and pickerel, crappies, sand pike, perch, sunfish, rock bass, May 1st to March 1st, following; suckers, bullheads, redhorse, sheepshead and carp may be speared without limit at any time, artificial lights may be used in taking said fish from April 20th to June 1st.

Bag limit 5 morning doves, prairie chicken, or pinnated grouse, white-breasted or sharp-tailed grouse, wood cock or upland plover, in the aggregate of all kinds in one day.

Not to exceed 10 quail, 5 partridges, male Chinese ring neck or English Peasant in the aggregate of all kinds in one day.

Not to exceed 15 wild ducks, coots, rails or gallinules. Wilson or jack snipe and greater or lesser yellow legs in the aggregate of all kinds and not to exceed 5 geese in any one day.

25 fish in one day.

Use of swivel guns, snares, traps, artificial light, to catch or kill birds, or dogs, to hunt animals, and hunting game birds from motor vehicles, prohibited.

The sale of brook trout or gray, black or Oswego bass is prohibited.

Sale, exposing for sale, or shipment of any game bird, or any variety of acquatic fowl whatever unlawful.

Game birds may be had in possession 5 days, and deer and moose lawfully killed, 5 days after close of season.

State bounty ($7.50) for killing a full grown wolf, and ($3.00) for killing a cub, and many of the counties pay an additional reward.

Resident license $1.00. Non-resident license to hunt game birds $15.00; to hunt game animals, $50.00; to fish, $1.00.

THE DIRECTORY IS THE COMMON INTERMEDIARY BETWEEN BUYER & SELLER

R. L. POLK & CO.'S
MINNESOTA STATE GAZETTEER
AND
BUSINESS DIRECTORY
FOR
1920-1921

In the following section of the work the cities, villages and postoffices of Minnesota are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein. In all the larger places the names have been procured by personal canvass, but in the smaller places, where there are less than half dozen stores, they have been obtained by correspondence. Great care has been taken to insure correctness as well as completeness.

AASTAD. Grant county. A settlement 5 miles n e of Wendell on the Soo Line the banking and shipping point and 12 s of Fergus Falls the p o which see for names.

ACADEMY. Hennepin county. A station on the Luce Elec Line 7 miles w of Minneapolis.

ACOMA. McLeod county. A settlement 7 miles w of Huthinson on the G N Ry the banking and shipping point and p o which see for names.

ACROPOLIS. Itasca county. A station on the G N Ry 10 miles n e of Warba the nearest banking point and 3 n e of Goodland the p o.

ACTON. Meeker county. A settlement 6 miles s of Grove City on the G N Ry the banking and shipping point and p o which see for names.

ADA. Est pop 1900. Norman county. A city and the county seat on the G N Ry 47 miles n e of Fargo N D. Has Catholic, Congregational, Norwegian and German Lutheran, English and German Methodist churches, 4 banks, 2 hotels, a community club, an opera house, 4 grain elevators, a flour mill, a creamery, an electric light plant and water works. Three weekly newspapers, the Index, the Norman County Herald and the Norman County Post are published. Has graded public and high school, the latter having an industrial and agricultural department in connection, established under the Putnam act. Ships grain, live stock, flour, feed, seeds, produce, dairy products and potatoes. Land sells at $60 to $150 per acre. Exp and tel. Jason Weatherhead P M.

AITKIN. Est pop 2500. Aitkin county. The county seat on the N P Ry and the Soo Line giving the town ample railroad facilities for manufacturing enterprises, also on the Mississippi river 87 miles s w of Duluth. It is the center of a fine agricultural and stock country, still has a vast amount of timber wealth adjacent, mostly hardwood and is situated in the midst of rich iron ore deposits. The country surrounding Aitkin abounds with beautiful lakes and streams which have numerous cottages and summer homes around them, which is making this territory a popular place for summer cottagers and campers, game and fish being very plentiful. Has Episcopal, Congregational, Catholic, English and Swedish Methodist and Swedish Lutheran churches, a commercial club, 3 banks, 2 hotels, a public library, an opera house, 2 creameries, municipal electric light and water plants. Two weekly newspapers, the Independent Age and the Republican, are published. Land sells at $16 to $75 per acre. Ships timber and dairy products, potaoes, berries and hay. Exp and tel. ALBERT LEA. Est pop 12,000. Freeborn county. The county seat on the M & St L, Illinois Central, C M & St P and the C R I & P Rys 101 miles s of the Twin Cities. It is a flourishing city beautifully situated on a plateau between and overlooking Fountain Lake and Lake Albert Lea and is located in the center of one of the most populous and richest farming and dairying sections of the country. It is well laid out with wide and beautiful paved streets and fine sewer system. The buildings are modern structures of red and white sandstone and pressed brick. It has a large and constantly increasing trade and is a splendid market for all kinds of farm products. Here is located the Albert Lea State Creamery, the only creamery in the country owned by a state. It is the leading dairy county of the state, producing more than $2,000,000 annually. Has Baptist, Catholic, Christian Science, Episcopal, Lutheran, Methodist and Presbyterian churches, a business men's league, a business college, an academy, a public library, a hospital, 4 banks, 5 hotels, 2 theatres, flour, flax-fiber, and feed mills, foundry and

WHY USE POOR GASOLINE, which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

BRAINERD. Est pop 10,800. Crow Wing county. An enterprising manufacturing city and the county seat favorably located on a level plateau about 60 feet above the Mississippi river level giving it a natural drainage within 12 miles of the geographical center of the state. The river here has been dammed furnishing 600 horse-power for manufacturers and overflowage for boom facilities for two billion feet of logs. Brainerd is located at the junction of the Lake Superior and St. Paul divisions of the N P Ry 127 miles n w of the Twin Cities and 118 s w of Duluth and at the terminus of the M & I Ry which has general offices here. Brainerd is the receiving and distributing point of the surrounding country which exports large quantities of lumber, grain, furs, creamery products, fish, produce and the luscious blueberries that grow here in abundance. The machine shops of the N P and M & I Ry are located here and give emmonthly payroll aggregates from $75,000 to $85,000 per month. The city has arc and incandescent electric lights, a

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

CROOKSTON. Est pop 10,000. Polk county. A prosperous and enterprising city and the county seat on the Red Lake River 28 miles from its junction with the Red River of the North. It is an important railroad center on the main line of the G N and N P Rys 272 miles w of Duluth 299 miles n w of the Twin Cities in the direct line of travel to Manitoba and British Columbia. It is also the terminal of 3 branch lines of the G N Ry. Has churches of all leading denominations, a sanitorium, 2 hospitals, a public library, a business college, an academy, an active commercial club, five banks, ten hotels, a theater, feed, flour and fibre mills, a sash, silo, soft drink, marble and cheese factories, a foundry and machine shop, 4 grain elevators, a tannery, 2 creameries, 2 bottling works, electric, gas and heating plants several miles of paved streets and a modern sewer system. A daily newspaper, the Times, a semi-weekly, the Press, and a weekly, the Times, are published. The city has the Holly system of water supply and for drinking purposes artesian wells. A state experimental farm of 480 acres was located here in 1895. The country tributary is one of the best farming districts in the state and has been lavishly endowed by nature with every advantage. The system of farming has undergone a radical change from that of exclusive wheat raising to systematic crop rotation, stock raising and dairying, and as a consequence of the latter, creameries and cheese factories have been established in numerous localities with extremely gratifying results. The development of these agricultural interests along these permanently substantial lines for which this region is especially adapted by its wonderful capacity for producing a large variety of nutritious grasses including clover and timothy is rapidly operating to the advantage of this important commercial center of the Red River Valley. The principal shipments are wheat, potatoes, flour and lumber. Good improved lands can still be obtained within reasonable distance at $30 to $100 per acre. Exp and tel W T Nicholson Acting P M.

CROSBY. Est pop 3,800. Crow Wing county. A mining town on the Cuyuna Range and the Soo Line Ry 17 miles n e of Brainerd. One of the largest bodies of manganese and manganeferious ore in the world is located here. Surrounded by thousands of acres of the most fertile agricultural soil in the state. Situated on the sore of Serpent Lake one of the prettiest lakes in Minnesota 3½ miles in length which is teeming with fish. Has Catholic, Lutheran, Methodist and Presbyterian churches, 2 banks, a hotel, a commercial club, 2 hospitals, 16 miles of cement sidewalk and curb, 8 miles of graded streets, electric lights, sewer and water systems. A weekly newspaper the Courier is published. Large quantities of iron ore are shipped. Land sells at $20 to $200 per acre. Exp and tel. Frank A Lindberg P M.

DETROIT. Est pop 4,000. Becker county. Incorporated as a village in 1880 and as a city in 1900. The county seat on the N P and the Soo Line Rys 198 miles n w of the Twin Cities. It is an important station servng as a distributing point for a large area of well settled agricultural country. Has municipal electric light, water, heating and sewer systems, a Carnegie library building, free mail delivery, Baptist, Episcopal, Catholic, Congregational, Methodist, Swedish, Norwegian and German Lutheran churches, 4 banks, a commercial club, 2 hospitals, 6 hotels, several wholesale houses, boat works, tanning, fur, cement block, brick, wood working and tile factories, bottling works, a flour mill, 2 grain elevators, a creamery and a large pavilion in the City Park on Lake Shore. Its location in the midst of a cluster of beautiful lakes and on the edge of the vast Red River Valley and Dakota prairies makes it a popular summer fishing and hunting resort. Two weekly newspapers, the Record and the Herald, are published. Ships grain, furs, potatoes, produce, wood, ties, ice and mineral water. Land sells at $20 to $150 per acre. Exp and tel. Everett W Davis P M.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

DULUTH. Census pop 98,917. St Louis county. Located 150 miles n e of St Paul and Minneapolis, 483 n of Chicago and 250 e of Fargo. Duluth has a beautiful setting on the hill side sloping to the shore of Lake Superior. The hill rises to a height of 800 feet above the lake and its brow is circled by a boulevard, twelve miles in length from which a striking view of the harbor, the cities of Duluth and Superior and the surrounding country is obtained. The view of the lights at night is not equalled by anything else in the world.

MAIN OFFICE AND FACTORY—420-428 3rd STREET NO.
PLANT No. 2—429-431 Washington Ave. N. MINNEAPOLIS, MINN. PLANT No. 3—217-219 2nd St. No.

The Duluth park system is unexcelled anywhere in America for natural scenic beauty, all of the parks being built on the base of ravines through which streams tumble down the hill to te lake. The parks are connected by the boulevard, and the system is one from which visitors draw constant enjoyment. Duluth is situated at the head of Lake Superior, the most westerly of the great chain of lakes which reaches from Duluth to the eastern outlet of Ontario forming with the St Lawrence river and gulf a continuous navigable waterway from Minnesota to the Atlantic. Fifteen railroad lines terminate here. Duluth has the most commanding position in the markets of the world.

The great agricultural and grazing Regions of the North American continent are immediately tributary to Duluth. The greatest iron ore mines, producing the highest quality of iron, are within the dooryard of Duluth, and one of the largest tracts of timber land remaining in the United States is in the northern part of Minnesota and Wisconsin, not far from this city, and all the largest sources of natural wealth in the world are found close by. The largest quantity of pure water is supplied, which has contributed greatly to the splendid health record and the low death rate. Duluth is an ideal summer and health resort and is looked upon by those who seek recreation and pleasure during the hot months of summer much the same as Los Angeles, on account of its favorable climate in winter, and tourists visit Duluth every summer in large numbers to escape the heat and inconveniences of hot weather and to refresh themselves with the cool and invigorating breezes on the shores of Lake Superior. More than 100,000 tourists have visited Duluth during the past summer and all speak of it as a summer paradise. Duluth has long been known as a manufacturing and distributing point on account of its superior shipping facilities, by rail and water. It has the finest land locked harbor in the world, on which the government has spent large sums of money in improvements.

An aerial ferry bridge, the only one of its kind in the world, is in practical operation here, and is one of the sights of interest. The tonnage of Duluth and Superior together is second only to the port of New York and larger than most of the great seaports of the world.

The receipts and shipments of grain, flour, ore, lumber and other heavy commodities are almost beyond computation. There are fifteen banks with capital and surplus amounting to six millions of dollars, and there are also a number of large, strong loan and trust companies.

The postal receipts equal that of many cities having a population of 500,000, which is an indication of the immense transactions that take place.

Nearly half a million dollars are expended annually for public improvements. Nearly all the streets are paved or well graded. There are a number of mammoth saw mills, flour mills and iron-working establishments. A plant has been erected here to develop the water power of the St Louis River, which is second only to that of Niagara Falls and which furnishes the city with electric light and power. The general offices of the steel corporation are located here, as are also the general offices of many large mining corporations. The steel corporation has a plant costing $20,000,000, a $3,000,000 addition is now being built which is the largest and most modern and best equipped of its kind in the world. It has revolutionized trade in the Northwest, and furnishes steady employment for an army of skilled workmen. The city is well supplied with electric and cable cars and municipal gas and water plants. There are several first class hotels, magnificent schools and churches, such as are not excelled by any city in America. The city furnishes gas at seventy-five cents a thousand for lighting purposes, and fifty cents for heating and power. Electricity is furnished at 3 to 8 cents per kilowat hour. The city has a large commodious public library. Duluth has the most favorable location for trade and commerce of any city on the North American continent. It is midway between the two oceans; its natural resources and advantages exceed any other American city, and the eye of the capitalist and the investor has been upon Duluth for some years, and it is destined to become one of the greatest inland cities of this continent.

The scenery at Duluth is equal to many of the mountain regions, for, although the great hills have not such

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE
by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

FARIBAULT. Pop 11,000. Rice county. An important city and the county seat on the C M & St P, C R I & P and C G W Rys 52 miles s of the Twin Cities. It is surrounded by the finest agricultural country in the world the products of which are very extensively exported. The confluence of the Cannon and the Straight rivers here afford excellent water power. Has 14 churches with all the principal denominations, a commercial club, a public library, 4 banks, 3 hotels, an opera house, flour, feed, planing and woolen mills, 4 grain elevators, a brewery, cigar, shoe, furniture, piano, hand truck, gas engine, silo broom, passenger elevator, milk condensing, candy and canning factories, a creamery, foundry and machine shops, bottling works, gas and electric light plants and water works. The business streets are substantially paved and the residence district is replete with handsome homes. The noticeable buildings are those of the Seabury Mission, the Shattuck School, St Mary's Hall Seminary, the Divinity School, the state institutions, court house, city hall, Episcopal Cathedral, Bethlehem Academy and St Lucas Hospital. A daily newspaper, the News, and 4 weeklies, the Journal, Democrat, Republican and Pilot, are published. Ships articles manufactured here, also live stock, hides, seeds, grain and produce. Land sells at $150 to $300 per acre. Exp and tel. Jno Kasper P M.

FERGUS FALLS, Census pop 7,581, Est 9,000, Otter Tail county. A prosperous city and the county seat on the N P and G N Rys 182 miles n w of the Twin Cities. The Red river here furnishes one of the finest water powers in the state which is partially utilized by various mills and factories among which are flour and woolen mills and wood working factories. The Dayton Hollow Project erected in 1907, and the Hoot Lake project built in 1913 furnish power for 42 cities and villages within a radius of 200 miles. Has 16 churches, the majority of which are handsome and imposing places of worship, a public library containing 6,000 volumes, 2 colleges, 2 hospitals, a commercial club, 6 banks, 7 hotels, 2 theatres, broom, casket, ice cream, silo, soft drinks and tile factories, foundry and machine shops, 2 feed mills, 3 grain elevators, 2 creameries, wholesale grocery and fruit houses, a packing house, a spendid system of water works, an electric light plant and the facilities and appointments of a progressive center. Two daily newspapers the Journal and the Free Press, and 4 weeklies, the Journal, the Free Press, Ugeblad and Wheelock's Weekly, are published. Its eligible location in the heart of the finest agricultural region in the state, coupled with the energy, enterprise and thrift of its citizens, have induced its rapid and at the same time steady growth and its future as a metropolis of this section of the country is assured. The inducements to investing capital are of the most generous nature because the taxes here are lower than in any other place in the state and any legitimate enterprise locating here will receive a warm welcome and generous support. There are over 1,000 named lakes in this county, many of which have extensive summer resorts and the fishing and hunting in season is not surpassed anywhere. Land sells at $75 to $200 per acre. Ships flour, grain, woolen goods, farm machinery, lumber, dairy products, live stock, produce and potatoes. Exp and tel H M Wheelock P M.

GRAND RAPIDS. Est pop 3,200. Itasca county. The county seat on the G N Ry 95 miles n w of Duluth. The principal industry is logging, lumbering and iron mining, but farming lands are being rapidly settled and agricultural pursuits will supersede lumbering. Agriculture will in fact become the future mainstay of the town. The soil is rich and well adapted for raising all kinds of crops. Has Methodist, Presbyterian, Episcopal, English and Swedish Lutheran and Catholic churches, a library, a commercial club, a hospital, 2 banks, 7 hotels, paper lath and cooper supply mills, a creamery, an electric light and water plant. Two weekly newspapers the Herald-Review and the Itasca County Independent are published. Ships paper, cooperage products and produce. Land sells at $5 to $100 per acre. Exp and tel. Edw C Kiley P M.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

SUPERIOR

The Future Ocean Port · The New Steel Center

Look at the map of North America and notice the location of Superior. It is situated at the head of the Great Lakes, with tremendous advantages in its favor. Great developments are soon to be expected, because of the saving in the cost of shipping to Atlantic ports by opening a waterway from the Great Lakes to the ocean; and because of making this region a great steel center. There is plenty of iron ore in every direction from Superior, and it has one of the finest harbors in the world. It is closer to the coast cities by rail than Chicago. Watch Superior grow!

"THE OLD RELIABLE"
LESTER PRAIRIE - MINN.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

LITTLE CANADA. Ramsey county. A village on the N P Ry 7 miles n of St Paul the banking and shipping point and p o which see for names.

LITTLE FALLS. Est pop 7,000. Morrison county. Incorporated as a village in 1879 and as a city in 1889. The county seat on the Mississippi river and the N P Ry 108 miles n w of the Twin Cities. The Mississippi river at this place flows over a solid foundation of hard, refrectory slate rock and granite, which gives to the water power improvements absolute safety and makes them as durable as the granite rock itself. The dam now 20 feet high is arranged so the water can flow over its entire length of over 800 feet. The main channel is kept at ths desired height by 8 large gates. The Northern Pacific Ry has independent terminal connections with all mills and factories and radiates from here in four different directions viz s e to the Twin Cities, with their vast connections, n e to Duluth and Superior, at the head of the great system of lake navigation, to the s w by the Little Falls & Dakota branch and the n w and Pacific coast by each line of road crossing many other lines. Little Falls has 17 churches, 4 banks, 6 hotels, an electric light plant, a park of 55 acres of white pine, a public library, a business college, Board of Commerce, high and grade schools, an opera house, 2 hospitals, an orphanage, 3 grain elevators, flour, lumber and paper mills, large black granite quarries, 2 creameries, candy and soft drink factories. A daily newspaper, the Transcript, and a weekly, the Herald, are published. Daily stage to and from Pierz. Land sells at $25 to $125 per acre. Exp and tel. Simon P Brick P M.

MAHNOMEN - - - MINN.

Black dirt on top of yellow clay with good natural drainage is what Mahnomen County offers to the seeker of good land.
Our prices range from $50 to $65 for good prairie land and from $65 to $125 for improved farms.
We raise all kinds of grain, corn, clover and alfalfa.
We want live agents in every locality and will pay liberal commissions.

MANKATO. Est pop 15,000. Blue Earth county. Settled in 1853. Incorporated as a village in 1864, as a city in 1868. The county seat located in Blue Earth Valley, one of the richest agricultural sections of the state, at the confluence of the Minnesota and Blue Earth rivers, 85 miles s w of the Twin Cities. The prosperity and development of the city is largely dependent on its facilities for transportation, and its valuable and inexhaustible natural resources of stone and clays and the various uses to which they are applied. To the exceptional advantages enjoyed by this city in these respects is due, more than any other agency, its prosperity. The C St P M & O, C M & St P, C & N W and C G W R R all meet here, and are developing some of the richest agricultural regions of the state, and gather into Mankato an immense and growing traffic. The manufacturing interests of the city are large and rapidly increasing, representing about fifty distinct industries including the largest cement works w of Milwaukee, several large stone quarries, flour, feed and knitting mills, machine shops, iron foundries, brick yards, lime kilns, tile plants, a creamery, a nursery, bottling works, woodworking, incubator, candy, soft drink, cigar, overall, shirt, paper box, creamery package, and broom factories, a lithographing and printing plant. It also has churches of all the leading denominations, a state normal school, several colleges and academies, a public library, a Y M C A building, golf, country and Elks clubs &

hospitals, 4 hotels, an opera house, 3 national, 1 savings and 3 state banks, one of the largest building and loan associations in the state, 2 loan and trust companies, 3 commercial bodies, gas and electric light plants, 2 grain elevators, broad and well-paved streets, water works, a sewer system and all the facilities and appointments of a thoroughly progressive commercial center. An electric railway covers 7 miles in the city limits and will eventually be extended into the country. The press is represented by a daily paper, the Free Press, and three weeklies the Free Press the Union News and the Ledger. Mankato can offer to the business man every advantage, to the home seeker a pleasant and healthful location and assure him of a hearty welcome with every religious, educational and social advantage to be desired while its central location, unrivaled shipping facilities, and the intelligence, industry and enterprise of its citizens make its future an assured success. In spite of the large number of houses and flats erected in 1918 and 1919, the rental offices have many demands for houses which they are unable to furnish. Land sells at $150 to $250 per acre. Ships grain, flour, live stock, produce, hides, wool, brick, cement and tile. Exp and tel. C E Wise P M.

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.

MINERAL SPRINGS. Goodhue county. A station on the C M & St P Ry 3 miles e of Cannon Falls the banking point and p o.

MINNEAPOLIS. Census pop 380,498. Hennepin county. On the Mississippi river 10 miles above St Paul, 420 n w of Chicago, 160 s w of Duluth.

Minneapolis and St. Paul are together widely and generally known as the Twin Cities, and although two separate municipalities, they have become famous as one center of population, with everything in common except political boundaries. With an aggregate population of 615,093, this community now ranks as eighth in size and importance among the trade centers of the United States, New York, Chicago, Philadelphia, Detroit, Cleveland, St. Louis and Boston being the only cities on the North American continent that exceed the Twin Cities in population, trade and wealth.

Within this favored and prosperous area are many of the largest and best institutions in the nation and many highly interesting sights for tourists. The altitude is about 800 ft. The clear lakes and bright blue sky are the first evidences of a pure, healtful atmosphere and an invigorating climate that is destined to create the greatest and most vigorous race of men the world has ever known. The Twin Cities are on the highway between the Atlantic and Pacific oceans, being 1,300 miles from the eastern seaboard and 1,800 miles from the western coast, and must of necessity soon take third place among the great trade centers of this progressive nation.

In 1838, the Indian title to this locality was extinguished and the first settlement was made at the Falls of St. Anthony. The attraction was the immense water power afforded by the falls and the abundance and excellence of the pine in the forests of the country along the Upper Mississippi and its confluents. This is now said to have been the origin of Minneapolis, but it was in truth the beginning of St. Anthony, for the original Minneapolis was confined to the west side of the river and its settlement did not begin until 1850.

Two years later the little village of Avon was platted, the name being subsequently changed to Minneapolis. Such was the beginning of what has in the short space of 70 years grown to be one of the great cities of America.

It is not alone of her population that Minneapolis has occasion to be proud. Her boast should be of the conditions which made it possible for her to gain this multitude in the brief space of time since the city was founded; the especial facility which developed the struggling frontier settlement to a mighty metropolis is the power fur-

A SUGGESTION on HOW to USE THIS DIRECTORY
When looking for SHEET METAL or PRESSED STEEL PRODUCTS, STEEL AUTO WHEELS, AUTO COMBINATION TANKS, TRACTOR FENDERS, FOLDING TABLES and CHAIRS and other Products made from metal see ST. CLOUD, MINN., SECTION for information on the **PANDOLFO MANUFACTURING CO.**

nished by St. Anthony Falls. This would have been sufficient to draw population and capital. Added to this, however, was the heavily timbered pine region near the upper river, and convenient to float the logs down to the mills. Still another attraction was the nearness to one of the greatest wheat-growing regions in the world. This could also be brought to Minneapolis mills with facility and ground into the best quality of flour.

These gave Minneapolis its start, and having once become famous for its lumber and flour, and being withal situated in the midst of a country eminently suitable for general agriculture, and with various materials for manufacturing within easy reach, it is not strange that it grew speedily into prominence. Today the city not only enjoys all the advantages which made it what it has become, but it has added to these and is still adding to them.

In the way of public improvements Minneapolis is one of the most progressive cities in the country. Several million dollars have been spent on the park system. The beautiful Lakes of Harriet, Calhoun, Lake of the Isles and some others have been connected, and a boulevard system has been placed around them, extending hundreds of miles, making the most wonderful driveways in the world. There are several interurban lines, four to St. Paul, one to Northfield, and one to Anoka.

Minneapolis is often spoken of as the City of Churches—on account of the large number of places of worship within its borders.

There are a score of beautiful parks; also a well-designed boulevard system. The public library occupies its own magnificent building. Minneapolis is rich in handsome buildings, the most prominent of which are the University buildings, the finest city and county building in America, occupying a whole block, being about 600 feet square. There are many large and elegant public buildings equal to those of the largest cities. The Athletic club is one of the finest and is a great asset to the social and civic factors of the city.

Minneapolis is noted for its wonderful hotel accommodations.

A great commodious union railway station is a source of pleasure and satisfaction to the traveling public.

The Civic and Commerce Association in summing up says of Minneapolis:

With the guaranty of a prosperous and ever growing market which offers to seekers of promising locations for industrial and commercial enterprises, it tenders also rare educational and cultural advantages besides a wealth of natural beauties and healthful diversions. While it is the commercial and financial metroplis of the Northwest and enjoys high mark among the manufacturing centers of the United States, Minneapolis has not sacrificed its exceptional natural gifts in its remarkable material development and today bears creditably the title "The City of Lakes and Gardens."

It is the industrial capital and market center of a vast, fertile region exceeding in extent the combined area of France, Germany and Great Britain. Its advantage of location nearest the most rapidly developing section of the United States and the nine great railroad systems whose twenty-six lines radiate in all directions to the fertile fields, boundless forests and almost inexhaustible mineral deposits in the territory surrounding it, have operated in favor of Minneapolis.

Minneapolis is the world's chief producer of flour, having mills with a daily capacity of about 85,000 barrels. Their output is practirally 18,000,000 barrels per year, of which about 2,000,000 goes to the export trade.

Ranks fourteenth among the manufahturing centers of the United States, and is accorded second place in the per capita value of the production of its factories.

Minneapolis is one of the most important distributing centers of farm implements in the United States; the third largest fruit and produce distributing center; the most important linseed products center. The Northwest's automobile distributor and its largest receiver and forwarder of merchandise.

The reserve city of the Ninth Reserve Banking District. It has 50 banks with a combined capital and surplus of $130,000,000.

Minneapolis is one of the most important shopping centers of the country and the annual sales of its retail merchants greatly exceeds those of many cities of about the same or preater population. On Nicollet Avenue, its principal retail street, notable because it is not traversed by a street car line, Minneapolis presents an almost unbroken facade of atractive store fronts.

Has 85 modern public school buildings—including five large modern high school properties. Both manual training, comercial training and agricultural instruction are provided in the high schools. Dunwoody Institute has an endowment of $5,000,000 and it specializes in the training of youths for positions of skilled mechanics.

Here is the seat of the University of Minnesota, one of the most richly endowed and most efficient institutions of higher education in the United States. The University occupies a campus of 108 acres practically in the center of the city and has a total enrollment in the University proper and in the State Agricultural College of approximately 8,000 students. Several other colleges, commercial training institutions and private and parochial schools give Minneapolis as complete a system of education as any city in the country.

Minneapolis recently opened to the public The Minneapolis Institute of Arts, erected with funds contributed by public spirited men and having at its disposal a large fund for additions to its already priceless collection of paintings and sculpture.

The public library system instead of centering all of its energies and funds in a single building, has sent the library to all sections of Minneapolis and today there are six principal branches besides the central library and more than 125 deposit and delivery statins in the city, each being in itself a public library.

The public park system of Minneapolis embraces practically one-tenth

of the city's area of 53 square miles. Included in it are 5 large natural lakes besides a number of smaller bodies of water. Boating of all kinds, bathing and fishing are enjoyed just outside the business center of the city and the presence of the lakes, around which wend attractive boulevards, has proved an incentive for the erection of hundreds of beautiful homes facing these parkways.

It has been said that in Minneapolis a larger percentage of the laboring class owns its homes than in any other city on the continent. A recently published survey of the largest cities in the country shows the cost of living to be the lowest in Minneapolis. This is due in part to the fact that skilled artisans predominate and to the home-loving and home-making spirit which the attractive environment of the city instills in its working people.

Most of the line-yard lumber companies have their headquarters in Minneapolis.

The past thirty years have brought the development of a great diversity in the manufactures of Minneapolis. Machinery is now an important product and Minneapolis is supplying the world with a large number of other articles from its factories, including textiles, cereals, furniture and specialty articles.

The development of its wholesaling trade has kept pace with the increase of manufacturing in Minneapolis. Practically every article which goes on the shelves and into the stocks of the merchants of the Northwest can be supplied by Minneapolis jobbing houses and the large modern buildings occupied by the concerns engaged in the wholesale trade are among the most valuable and most substantial in this young but important metropolis.

To absorb the largest part of the tremendous grain crop of the Northwest which Minneapolis has done for years, being the leading cash wheat market in America, required the development of a dependable and resourceful system of finance. This resulted in the establishment of many banks and today the financial instituions of Minneapolis possess a total of deposits, capital and resources which practically doubles the total of other cities of its class. When the new financial plan of the Government was announced Minneapolis was named the reserve city of the Ninth District. The Government in fact did more than Minneapolis expected because it included in the district of which this city is the center, the Northern part of Wisconsin and the upper peninsula of Michigan.

Minneapolis has been substantially built and one sight which impresses the traveler arriving by almost any of the railroads entering the city, is the number and vast size of the grain elevators which dot the horizon. There are more than fifty of these great structures with a combined capacity of about 52,000,000 bushels or nearly one-half the annual receipts of wheat. They are built of wood, steel, brick, tile or concrete and the complicated machinery in most cases is operated by steam power.

The same honest stability is observed in the buildings down town housing the offices, stores and the wholesaling and manufacturing businesses of the city. The devotion of Minneapolis to things artistic and beautiful, however, is quite evident in all the city's architecture and the profusion of parks and flowers is immediately noticeable to the traveler as he goes from the railroad station to his hotel. The praises of "The Hanging Gardens of Minneapolis" have been sung by lecturers and globe trotters. They consist of boxes of foliage and blossoms which are attached to the window ledges of business buildings and which adorn the ornamental lamp standards lining the downtown streets. They are a foretaste of the beauties of the park sysetm lying beyond and in recent years this love of flowers has made itself manifest even around the more somber manufacturing establishments on trackage.

Two years ago, realizing that in spite of its remarkable achievements during the past twenty years the future promised even greater industrial development of Minneapolis, leading members of the Minneapolis Civic and Commerce Association, brought about the organization of a quasi business corporation which has established a center for industries comparable to the Bush Terminal and other great industrial tracts recently laid out in several of the most important American commercial centers.

It has fashioned a plan for dealing with industrial development which bears promise of effectively solving the problem of how to equip new factories with all necessary facilities. A large district has been secured to which has been applied the modern apartment house theory, supplying to all tenants every essential convenience. Fifteen industries have located on this tract since it was opened a year ago.

The development of the nearby residential district will be carried out on the most approved lines through the co-operation of the committee on housing of the Minneapolis Civic & Commerce Association which has spent years in the study of the most healthful, comfortable and sightly methods of laying out residential divisions.

Industries seeking sites in the new district will be protected from the avarice of land speculators. None of the investors in the Industrial Association expect to receive more than a fair profit upon the money he has subscribed. This assures that the cost of sites will not be excessive and the availability of such excellent facilities within that zone will make it impossible for the owners of other trackage sites in the city to place more than a fair valuation upon their properties.

WHY USE POOR GASOLINE which fills your motor with carbon and gives short mileage, when at the cost of 1c per gallon it can be made the very best and relieve you of all the trouble which comes from using poor motor fuel? Where kerosene is used in tractors or in stoves it will be found equally beneficial. It purifies the oil, increases the power, eliminates the smoke in kerosene stoves.

SAVE TWENTY TO TWENTY-FIVE PER CENT ON GASOLINE
by using GARVEY'S MOTOR PEP. Reduces gasoline expense. Increases mileage twenty to twenty-five per cent. Prevents eighty per cent of carbon. One $1.25 package treats 125 gallons of low grade gasoline, making it a high grade product. Prove by trying it.
